Greenpoint Attends NBAA in Las Vegas

Kirkland, Wash. – 1 October 2017 – [Greenpoint Technologies](#) will attend the National Business Aviation Association (NBAA) Convention & Exhibition in Las Vegas, Nevada, from the 10th through the 12th of October, as it continues to work on multiple V-VIP 787s.

Four years ago, Greenpoint set the vision to become the world's premier 787 completion center. Greenpoint invested millions of dollars and hundreds of thousands of engineering hours to fully understand Boeing's latest complex aircraft. Complexities including composite structures, variable frequency power, software-driven systems and stringent rapid decompression requirements. The investment set Greenpoint's vision into motion with two 787-8 contracts. The vision became a reality when Greenpoint debuted the world's first V-VIP 787-8 interior at the European Business Aviation Convention and Exhibit (EBACE) in May 2016. This industry first led to four additional V-VIP 787 contracts to include the world's first V-VIP 787-9.

Greenpoint's next V-VIP 787-8 delivery occurs early 2018, followed by two additional 787-8s inducting later that year and the 787-9 inducting in 2019. The company is tracking at 100% for on-time 787 program deliveries.

The Greenpoint Team is available at Zodiac Aerospace's Booth #N908 in the North Hall.
