Greenpoint Technologies Showcases VIP 747-8 Model at MEBAA 2016

Kirkland, Wash. – 2 December 2016 – [Greenpoint Technologies](http://www.greenpointtechnologies.com), a Zodiac Aerospace Company, exhibits their 1/20th scale VIP 747-8 model at the Middle East Business Aviation Association (MEBAA) tradeshow event (booth #427) in Dubai, UAE, 6th – 8th December.

Greenpoint's VIP 747-8 model will be on display for the first time in the Middle East. The model features Greenpoint's patented Aerolift™, an elevator that permits access from the ground to the main deck, and the Aeroloft®, which provides additional passenger sleeping suites above the main deck. Greenpoint has sold five Aeroloft® kits for the VIP 747-8 aircraft to date.

“MEBAA is an excellent venue to strengthen relationships. It's an intimate setting where we can discuss challenges experienced by owners and offer realistic solutions. Our team supports each customer individually while delivering a high quality, exceptional interior. For example, our second VIP 787-8 is nearly complete, delivering on schedule and is as stunning as our first 787 delivered earlier this year,” explains Greenpoint Executive Vice President Bret Neely.
