Greenpoint Technologies Receives Chamber of Commerce Recognition and Announces Open Positions

Kirkland, WA – March 30, 2012 – [Greenpoint Technologies](#), a premier VIP completions center for [Boeing Business Jets](#), receives recognition by the [Bellevue Chamber of Commerce](#) as one of 2012's *Best of the Eastside Top Corporate Citizens*.

The Bellevue Chamber of Commerce annually acknowledges companies who continue to grow, prosper, and provide a cooperative work environment for top talent. Greenpoint Technologies received the recognition as a result of their strong community involvement over the past 24 years and dedicated commitment to their employees.

“Greenpoint takes great pride in our employees and it’s reflected by our employee-customer relationships,” said Greenpoint Executive Vice President Sloan Benson. “We create a positive culture, instilling accountability and trust with both customers and employees. This approach serves us well by our ability to continually deliver programs on-time,” added Benson. Greenpoint was also recognized by [Seattle Business Magazine](#) as one of [Washington’s 100 Best Companies](#) to Work for in 2011.

The company continues to experience healthy growth and has increased its team by 23% in the past year with a total of 275 employee’s companywide. Greenpoint is announcing several open positions to meet growing demand and expanded capabilities.

Greenpoint is currently hiring for the following positions:

- Program Manager
- Director, Operations
- Senior Stress Engineer
- Senior Design Engineer for Interiors, Structures and Mechanical Systems
- Design Engineer
- Manufacturing Engineer

Interested applicants should visit www.greenpnt.com/careers for more information.

Greenpoint Technologies is a premier completion center for Boeing Business Jets, established in 1988. Greenpoint provides turnkey VIP aircraft interiors for private individuals and heads-of-state clients. In-house talent includes interior design, engineering, program management, manufacturing, and certification for interior installations and modifications. Strategic goals focus on the customer experience by incorporating quality, commitment, and craftsmanship into every completion. To learn more about Greenpoint Technologies, visit www.greenpnt.com.
