

## GREENPOINT SUPPORTS EARLY RE-DELIVERY OF C-40B

April 24, 2009

Kirkland, WA

Greenpoint Technologies (GTI) supported the early re-delivery of Boeing's Global Transport and Executive Systems (GTES) C-40B aircraft modification.

Working closely with Boeing's GTES group, GTI certified security enhancements for the third C-40B aircraft. Despite the aggressive schedule and modification challenges, the team delivered the aircraft ahead of schedule "At a time when government programs are being scrutinized and budgets are being cut, the ability to perform on time and on budget has never been more crucial," states Scott Goodey, GTI President.

GTI continues to deliver programs ahead of schedule, ensuring that clients don't have to wait for their aircraft.
