GREENPOINT TECHNOLOGIES INDUCTING 18th BBJ3 COMPLETION

May 13, 2011

Kirkland, WA

Greenpoint Technologies inducts its 18th Boeing Business Jet (BBJ) completion, a VVIP BBJ3 at Aviation Technical Services (ATS) in Everett, WA this month.

Greenpoint and ATS have a history of working together on both VIP and head-of-state interior completions and modification programs. The most recent, a new BBJ completion, delivered early. As the confidential client stated, "You delivered the aircraft early and we are confident in your ability to perform." Greenpoint's liaison team work alongside the ATS technicians ensuring the phased installation meets all quality and aesthetic requirements mandated by the most discerning clients.

"Precise planning and collaboration with the modification facility from the start lay the groundwork for quality, on-time deliveries. We are experiencing steadfast success with a current BBJ in completion at another facility. The flexibility, rigorous control and teamwork we bring to these programs, is one of the reasons clients seek our services," conveys Adrian Osborn, Greenpoint's VP of Programs.

For more information, please contact Christine Hadley at (425) 828-2777 ext. 7154 or by e-mail at chadley@greenpnt.com.

Greenpoint is an experienced Boeing Business Jet Completion Center providing VIP aircraft interiors for Boeing airplanes. Greenpoint incorporates in-house capabilities of interior design, engineering, program management and certification for aircraft interior installations and modifications. Established in 1988, Greenpoint has a history of VIP completions for private individuals and heads-of-state. Driven by its nimble customer-focused culture, Greenpoint's strategic goals incorporate quality, commitment and craftsmanship into every completion.
