Greenpoint Technologies Contracts Airline Interiors

Kirkland, WA – August 26, 2013 – [Greenpoint Technologies](#) contracts an airline interiors manufacturing program.

The build-to-print and testing program includes manufacturing interior bar units, coat closets and video control cabinets (VCC) for eight (8) Boeing 777-200 aircraft. The customer will provide the engineering and certification. First article inspections start in four (4) months with deliveries beginning in February 2014. All twenty-four (24) units are planned to deliver prior to December 31, 2014.

“This is the first airline interiors program for Greenpoint’s manufacturing division. The team’s ability to manufacture highly complex VIP products, while delivering on-time, was proven by the 747-8 Aeroloft® program. Greenpoint’s manufacturing offers a quality and timely solution for airlines seeking interior improvements,” affirms Greenpoint President and CEO, Scott Goodey.

The division continues on-going refinements with equipment and capabilities expansion.

747-8 Aeroloft® Closet and Changing Room

Greenpoint Technologies is a premier BBJ Completion Center, creating superior aircraft products and VIP completions exclusively for Boeing aircraft. Greenpoint provides turnkey VIP completions

with an exemplary 99% on-time delivery rate during its 25 years of private ownership. The Greenpoint company umbrella encompasses all disciplines in-house, from engineering and design to manufacturing and installation of VIP interiors, enabling manufacture of heavy structure, VIP cabinetry, and custom machined parts. The company embodies a continuous improvement culture reflected in its lean operations, positive customer surveys and extremely low attrition rate. Strategic goals focus on the customer experience by incorporating quality, commitment and craftsmanship into every program. To learn more about Greenpoint Technologies, visit www.greenpnt.com.
