Greenpoint Technologies Contracts Second 787 VVIP Completion

Kirkland, WA – 8 January 2014 – [Greenpoint Technologies](#), a premier VIP completions center for [Boeing Business Jets \(BBJ\)](#), signs a second 787 VVIP completion contract with a confidential customer.

Greenpoint's 787 initiative and resource investment wins second completion contract. Chief Customer Engineer Mike Weisner states ([view video statement](#)), "One advantage Greenpoint brings to the completions industry is its preparation. With the 787 coming to market there was a lot of fear, apprehension and unknowns with a new airplane. Greenpoint took the time and care using its resources to invest and really get to know this airplane before the first customer knocked on our door. We've spent (over) five years learning about the airplane, visiting the factory, an advantage to us being next door to Boeing is the access we have, and we've put that to a positive advantage. We are ready for 787s."

As the company wraps up its 25th anniversary - 2013 year with their first 787 completion announcement, it welcomes 2014 with its second 787 contract.

Greenpoint Technologies is a premier BBJ Completion Center, creating superior aircraft products and VIP completions exclusively for Boeing aircraft. Greenpoint provides turnkey VIP completions with an exemplary 99% on-time delivery rate in over 25 years of private ownership. The Greenpoint company umbrella encompasses all disciplines in-house from engineering and design to manufacturing and installation of VIP interiors; enabling manufacture of interiors structure, VIP cabinetry, custom machined parts and aircraft heavy maintenance. The company embodies a continuous improvement culture reflected in its lean operations, positive customer surveys and extremely low attrition rate. Strategic goals focus on the customer experience by incorporating quality, commitment and craftsmanship into every program. To learn more about Greenpoint Technologies, visit www.greenpnt.com.
