### Greenpoint Supports 747-8 VIP Aeroloft “Kit” Third Party Installation

Kirkland, Wash. – 9 March 2016 – [Greenpoint Technologies](http://www.greenpointtechnologies.com), a Zodiac Aerospace Company, announces the first Aeroloft® “kit” installation by a third party completion center and the fourth 747-8 Aeroloft® certification.

The Greenpoint engineered and manufactured Aeroloft® kit delivered to the completion center ready for full integration. Greenpoint's team worked closely with the center to guarantee a smooth installation, offering liaison support at critical phases of the program. SWS Certification Services, Greenpoint's EASA certification partner in the United Kingdom, streamlined the EASA certification process, creating a team effort with this delivery.

“Collaborating with our partners on this Aeroloft® program showcases Greenpoint's focus on teamwork and adaptability. Supporting a third party modification center helps another VIP 747-8 take flight. A testament of our team’s ability to overcome obstacles and build trust with our clients,” affirms Greenpoint CEO Scott Goodey.
