Greenpoint Aerospace at NBAA Booth #N2715

Kirkland, WA – October 17, 2013 – [Greenpoint Aerospace, Inc.](#), a division of [Greenpoint Technologies](#), attends NBAA 2013's Business Aviation Convention and Exhibit in Las Vegas, October 22nd through October 24th. The executive team is available for meetings and introductions at Greenpoint's booth #N2715.

The recent acquisition of *Jet Works Air Center* aligns with the company's strategic growth in business aviation. The Greenpoint Aerospace team continues its focus on corporate and business aircraft maintenance, paint, interiors and avionics. Core strengths on the PC-12, P-180 and other turbine aircraft continues as additional capabilities are added.

"The Greenpoint Aerospace team embodies the same individuals you know and trust for the safety and quality of your aircraft. I trust this team with my family and staff as they maintain my Learjet, and have for the past seven years. When the opportunity arose to add this operation to the Greenpoint family of companies, we moved swiftly to make it happen. The Greenpoint umbrella provides the technical design expertise and financial stability which allows them to focus on what they do best – maintaining your airplane," affirms Greenpoint Chairman Jon Buccola.

Greenpoint Aerospace Facilities at Denton Municipal Airport in Texas

Greenpoint Aerospace, Inc. (formerly *Jet Works Air Center*) is a division of Greenpoint Technologies. The company offers interior refurbishments, VIP completions, maintenance, aircraft painting, and
