### **Greenpoint Technologies Obtains a Patent for the Aeroloft®**

Kirkland, Wash. – 10 June 2016 – [Greenpoint Technologies](http://www.greenpointtechnologies.com), a Zodiac Aerospace Company, obtains a patent for their Aeroloft® product.

The Aeroloft® features a customized stairway leading to eight private sleeping berths and optional changing room with closet, located above the main deck between doors 4 and 5 of 747-8 VIP aircraft. This solution provides passengers a comfortable rest area away from the main deck during flight.

Greenpoint has sold five Aeroloft® products to date, with four shipsets delivered thus far. The Aeroloft® is built in-house at Greenpoint’s structures manufacturing facility in Marysville, WA.

“This is a milestone achievement for Greenpoint, following nearly 10 years of development, production, installations and testing. The Aeroloft® truly is an efficient use of space on any 747-8 aircraft. It is an excellent example of Greenpoint’s collaboration with an OEM to design an innovative solution for our joint clientele,” explains Greenpoint Executive Vice President Bret Neely.

Aeroloft® Artistic Rendering (Location at Door 4)
