### **Greenpoint Technologies Wins Design Award for 787-9 Azure Interior**

Kirkland, Wash. – 5 November 2014 – [Greenpoint Technologies](#), a premier VIP completions center for Boeing Business Jets (BBJ), wins International Interior Design Association (IIDA) Northern Pacific Chapter's, In Concept Award for the 787-9 Azure interior design.

The In Concept Award recognizes the complex geometry of the 787-9 cabin as a very specialized residential design. The Judging panel describes the Azure interior elements as, 1) balancing space for rest and stimulation; 2) glamorous detailing with a soft color palette; 3) considerations for flammability, weight, noise and decompression. A final recognition compliments the amazing, photorealistic renderings.

“This is an honorable achievement for the Greenpoint Design Team. They consistently display our values of Fun, Integrity, Teamwork, Creativity and Customer Service. Their endless dedication to quality commitment shows by the designs they deliver and this prestigious award,” acknowledges Greenpoint VP of Sales Bret Neely.
