

PRESS RELEASE

GREENPOINT DESIGNED INTERIOR COMPLETION WINS CUSTOM JET AWARD

December 6, 2010

Kirkland, WA

Greenpoint Technologies' designed Boeing Business Jet (BBJ) interior completion wins prestigious "Best Customized Aircraft Interior" Award at the AVEX International Custom Jet Show 2010 in Sharm El Sheik, Egypt. Greenpoint's client, Petroff Air, received the outstanding achievement award based on the overall passenger experience.

The BBJ's interior features luxuries from home including a living room/lounge, dining/conference area, galley with service pantry, and a beautiful master suite with accommodating guest room. The interior was developed by Greenpoint's design team working closely with Petroff's Development Director, Dina Tkacheva. Annika Wicklund, Greenpoint's Design Manager, describes the interior, "The integration of historical reminiscence and clean, contemporary pieces makes this BBJ distinctive and original. The leather has a beautiful, full-grain antiqued effect, the veneer is a vibrant play of natural Anegre and dark stained Karilian burl, and the carpet has a radiant silk Ottoman Empire medallion, which enhances the living space. The interior represents old world elegance with a fresh, sophisticated style. Additionally, this aircraft has state-of-the-art technical features including a Karaoke system."

The program delivered ahead of schedule, an achievement Greenpoint stands behind. Tkacheva shares her experience working with Greenpoint; "Greenpoint provides a versatile design team and their installation team is highly knowledgeable and meticulous with details. The team is very passionate; they enjoy what they are doing and make it an enjoyable experience for their Customer."

Business is strong for Greenpoint having a deep backlog into 2013 for BBJ completions, as well as providing unique Boeing 747-8 products such as the Aeroloft™ and Aerolift.
