Greenpoint Technologies Announces First VIP 787-8 Ku-Band Antenna Installation

Kirkland, Wash. – 13 August 2015 – [Greenpoint Technologies](#), a Zodiac Aerospace Company, installs the first VIP 787-8 Ku-Band antenna provisions for inflight connectivity and offers this modification to other 787 completion providers.

Greenpoint continues to be a pioneer in the industry and announces the first installation of a Ku-Band antenna on a VIP 787-8 Dreamliner. Greenpoint will be installing another Ku-Band antenna on their second VIP 787-8 in November 2015.

“The composite fuselage designed by Boeing for the 787 Dreamliner presents many new challenges to those who primarily work with traditional aluminum skinned aircraft. There is a steep learning curve to understand the complexities of the new composite material, including processes for penetration, bonding, and the need for specialized tooling; all of which are taken for granted with standard aluminum skins,” states Greenpoint VP of Engineering, Bruce Kay.

Greenpoint offers the provisions installation, based on the 787-8 Ku-Band antenna Boeing Service Bulletin, to modification centers around the world. Greenpoint’s experience helps reduce the risk of damage during critical skin modifications while keeping cost and schedule to a minimum.

VIP 787-8 Ku-Band Antenna Installation Progression

About Greenpoint Technologies

Greenpoint Technologies is a premier Boeing Business Jet (BBJ) Completion Center, creating superior aircraft products and VIP completions exclusively for Boeing aircraft. Greenpoint provides

turnkey VIP completions with an exemplary 99 percent on-time delivery rate in nearly 30 years of operation. Greenpoint Technologies is part of [Zodiac Aerospace](#), a world leader in aerospace equipment and systems for commercial, regional and business aircraft, as well as helicopters and space applications. To learn more about Greenpoint Technologies, visit www.greenpnt.com. Searching for a career in a results driven, people-centric, and rewarding organization, visit www.greenpointcareers.com.

About Greenpoint Aerospace

Greenpoint Aerospace in Denton, Texas, offers maintenance, repair and overhaul (MRO), interior refurbishments, VIP completions, aircraft painting, and avionics repair, upgrades and installation. Greenpoint Aerospace services the following corporate aircraft: Challenger, Learjet, Gulfstream, Beechcraft, Citation, Pilatus and Piaggio. The company is part of [Zodiac Aerospace](#), a world leader in aerospace equipment and systems for commercial, regional and business aircraft, as well as helicopters and space applications.
