Greenpoint Technologies Supports the Community on National Rebuilding Day

KIRKLAND, Wash., 13 May 2014 – [Greenpoint Technologies](#), a premier VIP completion center for [Boeing Business Jets \(BBJ\)](#), renovates local home in support of *Spring Rebuilding Day* (National Rebuilding Day).

More than 50 Greenpoint employees and their families volunteered to provide the widow of a military veteran with a top-to-bottom spring cleaning, renovated kitchen, and extensive landscape makeover. This event marks Greenpoint’s seventh year as a *Rebuilding Together Seattle* sponsor.

“Adopting a *Rebuilding Together* home is just one of the ways our employees live Greenpoint’s corporate values which include fun, teamwork and community service,” said Scott Goodey, President and CEO, Greenpoint Technologies. “It’s a day we look forward to every year.”

In support of the day, Congressman Adam Smith, representing Seattle’s 9th District, visited the Greenpoint rebuilding site.

“I am a big fan of *Rebuilding Together* where volunteers come together and make such a difference. It’s a terrific organization that helps our community,” said Smith.

Rebuilding Together Seattle recognizes Greenpoint as a significant sponsor with highly-organized team members capable of performing remarkable transformations. To show their continued support Greenpoint employees will attend the *Inaugural Safe and Healthy Homes Breakfast*, on 15th of May. The breakfast kicks off *Rebuilding Together’s* 25th anniversary year.
