Greenpoint Technologies Renews AS9100 Certification

Kirkland, Wash. – 20 April 2017 – [Greenpoint Technologies](http://www.greenpointtechnologies.com), a Zodiac Aerospace Company, renews its AS9100 Rev C Certification following a third-party audit conducted at Washington and Texas facilities.

Greenpoint successfully completed the AS9100 third-party surveillance audit in early April. Multiple strengths were cited in the audit, including management and employee commitment to quality, excellent training programs, and cleanest cabin and machine shop facilities. Greenpoint has been compliant with AS9100 requirements since receiving the original certification in 2004.

“This achievement confirms the quality and efficiency of Greenpoint’s interior completions and manufacturing processes. Our processes are a fundamental reason Greenpoint continually executes programs on budget, on plan, and on time. This provides clients a predictable and trusted completion experience,” explains Greenpoint Vice President of Operations, Adrian Osborn.

One of Greenpoint’s Manufacturing Facilities located in Marysville, Washington
