Greenpoint Technologies Expands to Meet Growing VIP Completion Demands

Kirkland, WA – February 1, 2012 – [Greenpoint Technologies](#), a premier VIP completions center for [Boeing Business Jets](#), announces the addition of industry veterans: [Tim Pahls](#) as Vice President of Programs, [Ken Kummerow](#) as Senior Director of Engineering, and the promotion of [Jim Baltrukovicz](#) to Director of Program Management.

Tim Pahls

Tim Pahls joins Greenpoint Technologies with over 25 years of experience in commercial aerospace. Tim has been with B/E Aerospace for the past 16 years holding leadership positions in sales, marketing, engineering and program management. Additionally, he has worked at The Boeing Company and United Airlines and is a graduate of the University of Colorado. Tim is responsible for overseeing all programs and meeting the company's customer-centric vision and goals.

Ken Kummerow

Ken Kummerow joins Greenpoint Technologies with over 20 years of experience in the aerospace industry. He has worked in various engineering and operational roles with Raytheon, Bombardier, Gulfstream and Boeing. Ken is a US Navy veteran and holds a Master's Degree in Technology Management from the University of Phoenix. He is responsible for providing professional and technical guidance to the engineering team while meeting program goals.

Jim Baltrukovicz

Jim Baltrukovicz joined Greenpoint Technologies in 2008 as a Program Manager. He has worked for companies such as Goodrich, Labinal and Delta Airlines with over 20 years' experience in the commercial aviation industry. Jim's new role supports Greenpoint's upward trend with larger VIP completion programs. He will be leading the most recent 747-8 VIP completion program currently under way.

These recent additions and promotions are the result of growing demand at Greenpoint Technologies. It follows [announcements](#) regarding increased engineering capacity and expanding workforce to continue on-time deliveries.

"We are confident in the leadership these individuals provide our team as we position ourselves to keep pace with growing demand," commented [Scott Goodey](#) Greenpoint Technologies CEO and President. "Their passion and customer-focused work ethic fits perfectly with our culture of delivering high quality interior products on-time," added Goodey.

Greenpoint Technologies is a premier Completion Center for [Boeing Business Jets](#) established in 1988. Greenpoint provides turnkey VIP aircraft interiors for private individuals and heads-of-state clients. In-house talent includes interior design, engineering, program management, manufacturing and certification for interior installations and modifications. Strategic goals focus on the customer experience by incorporating quality, commitment and craftsmanship into every completion. To learn more about Greenpoint Technologies, visit www.greenpnt.com.
