### Greenpoint Technologies Unveils 747-8 Interior (in 1/20<sup>th</sup> scale) at EBACE

Kirkland, WA – May 10, 2013 – [Greenpoint Technologies](http://www.greenpointtechnologies.com), a premier VIP completions center for [Boeing Business Jets \(BBJ\)](http://www.boeing.com), unveils a 1/20<sup>th</sup> scale 747-8 model featuring a VIP interior at the European Business Aviation Convention and Exhibit (EBACE).

The one-of-a-kind model features a VIP interior design concept by Greenpoint’s in-house Design team. It includes Greenpoint’s unique products the Aeroloft®, which provides additional passenger rest space above the main deck, and the Aerolift™, an elevator that permits secure access from the ground to main deck. The layout design achieves both a corporate and personal atmosphere befitting a Royal family, Head-of-State or business entrepreneur.

“The interior represents the dynamics of flight with the artistry of timeless design. Inspiration comes from the elegance of travel from the 1930’s and 1940’s. Artful and functional, it showcases the 21st century balanced with the legacy of travel,” states Annika Wicklund Greenpoint Design Manager. She continues, “The exterior livery design symbolizes patterns inspired by the wings of a Gyr Falcon, the largest of the falcon species and known for its long distance.”

The 747-8 model unveils at Greenpoint’s EBACE booth #1027 at 11:00 am, Tuesday, May 21<sup>st</sup>, in Geneva, Switzerland.

Greenpoint’s 747-8 Model Livery

Greenpoint Technologies is a premier BBJ Completion Center, creating superior aircraft products and VIP completions exclusively for Boeing aircraft. Greenpoint provides turnkey VIP completions with an exemplary 99% on-time delivery rate during its 25 years of private ownership. The Greenpoint company umbrella encompasses all disciplines in-house from engineering and design to manufacturing and installation of VIP interiors; enabling manufacture of heavy structure, VIP Cabinetry, as well as custom machined parts. The company embodies a continuous improvement culture reflected in its lean operations, positive customer surveys and extremely low attrition rate. Strategic goals focus on the customer experience by incorporating quality, commitment and craftsmanship into every program.
