

FOR IMMEDIATE RELEASE

Greenpoint Unveils VIP Interior Concept Shortlisted for Design Award

Bothell, Wash. – 05 August 2020 – The International Yacht & Aviation Awards 2020 shortlisted [Greenpoint Technologies'](https://www.thedesignawards.co.uk/category/yacht-aviation-entrants-2020/) sustainable, twin-aisle VIP interior design concept called *Affinity*. Learn more about Greenpoint's *Affinity* interior, featured in the Private Jet Design Concept category, and vote here: <https://www.thedesignawards.co.uk/category/yacht-aviation-entrants-2020/>.

"The *Affinity* interior concept began with our client's desire for positive change and a renewed need to connect with nature. Our team drew inspiration from biophilic design, striving to bring the outside in through the creation of living indoor spaces with organic, sustainable design elements. The result is a contemporary, honest and meaningful interior," explains Annika Wicklund, Greenpoint Design Director.

Greenpoint's *Affinity* interior features an expansive main cabin with contemporary architecture and organic details. Key elements include a vast digital skylight extending across the cabin ceiling, a louvred archway with organic greenery and soft LED lighting diffused to mimic daylight. The forward lounge includes an outboard-facing oversized sectional, large viewing display and a circular, layered moss feature wall. The interior incorporates sustainable materials including bamboo silk carpet, organic greenery and natural oak.

The *Affinity* interior is shortlisted for the Private Jet Design Concept Award in The International Yacht & Aviation Awards 2020. Voting is open to the public for four weeks, closing Wednesday, 2 September 2020 at 9:00am PST.
