

**FOR IMMEDIATE RELEASE**

## **Greenpoint Technologies Accepts Delivery of BBJ MAX 8**

Bothell, Wash. – 09 April 2021 – [Greenpoint Technologies](https://www.greenpointtechnologies.com), a premier business jet interior completion center, accepts delivery of a BBJ MAX 8 from Boeing on behalf of an undisclosed V-VIP client.

Greenpoint’s client sought assistance with the delivery due to the challenges impacting international travel by the current global health crisis. After the Boeing delivery, Greenpoint will assist with repositioning the aircraft for auxiliary fuel tank installation, then induct the aircraft into Greenpoint’s installation facility in Moses Lake, Washington.

“We are honored by the trust V-VIP clients place into Greenpoint with their aircraft. Taking delivery of the BBJ MAX on behalf of our client signifies the confidence placed in Greenpoint’s unparalleled capabilities. We create beautiful aircraft interiors and build lasting relationships along the way. This is how Greenpoint delivered the world’s first BBJ3 (737-900 variant), 787-8 and 747-8 V-VIP aircraft, and how we look to the future with our BBJ MAX clients,” states Chad Thorne, Greenpoint Senior Director of Sales.
